TEAS! TEAS!!

THE CIRCULAR of 19th December, 1882, issued by the well-known Teabrokers, Messrs. HART & SIBTHROP, of Calcutta says, in respect to the Public Sales of Teas, held on the 14th instant:—

"A small invoice of 50 packages of very fine Kangra Valley Tea, from the Holta Tea Factory, realized an average of Rs. 1-8 per lb., ranging in price Rs. 0-9-6 for broken TEA to Rs. 4 for Golden Pekoe."

The above shows how the Holta Teas (of which we are the sole Agents in Bombay) are appreciated by the public. These Teas are quite unsurpassable, and no other Teas can even approach them, commanding as they do such high prices at Public Auction Sales. Tins of such Teas will be acceptable Presents during these festive times

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, DEC. 28.

OWING to the Christmas holidays we have only had two days open for business since the departure of last mail, and even now there is still a good deal of holiday feeling about, a number of people being away until after the New Year. In any case though, the basis of activity is wanting in all our markets. Cotton, Seeds, and Wheat are one duller than the other at home, so that exports are being kept within very small lines, whilst imports of all kinds find an equally bad demand here. Crop accounts, however, are favourable all round, so that any quietness now apparent will probably be compensated for later on when values accommodate themselves to the level of European markets. In the case of exports this will come when supplies of produce begin to accumulate, but imports take longer to find their true level, and may, therefore, have a somewhat prolonged period of dulness to face.

MONEY has not altered in value during the week, either at the presidency bank or in the open market, but the last return of the former, and the indications in the latter are distinctly towards higher rates of discount. Such a movement is of course only natural, and must be expected as the busy season comes on. We cannot, however, see the probability at present of more than moderate rates at any time during the coming season, as the low values current for all descriptions of produce will materially lessen the amount required to finance the crops. As compared with last season, for instance, we should put the reduction in values on Bombay alone at over 3½ millions sterling, a difference which cannot fail to make itself felt.

EXCHANGE.—Sterling closed for last mail with a very steady feeling on the basis of 1s. 4 5-32d. for demand Bank and 1s. 7 11-32d. for 3 months' Credit Bills. Yesterday on the resumption of business about the same level was current, but to-day, the fact of the 50 lacs of Council drafts having been applied for more than three times over at 1s. 7 1-16d., whilst 17 lacs of telegraphic transfer found buyers in addition at 1s. 7 1-32d. has imparted additional firmness, and whilst Bank paper is about the same rates for private bills have been advanced 3-32d., the following being closing figures :—

Bank Bills on demand	1s. 7 3-32d.	per rupee.
Do. Telegraphic	1s. 7 3-32d.	"
Do. 3 months' sight	1s. 7 9-32d.	"
Credits, 3 months' sight	1s. 7 7-16d.	"
France, 3 months' sight	204½	"

At this level the market at the moment looks firm, but we do not see any legitimate reason for a permanent rise just yet. Silver at home has declined to 50d. per oz. at which it lays down very slightly over to-day's price for sight bills, and there is no indication that supplies of the metal are being checked at all by the decline. So long as this is the case, and business on this side remains so dull, the groundwork of a lasting advance is wanting. At the same time we are inclined to think that having touched 1s. 7d. for demand Bank Bills we have seen the lowest point of the market.

On Calcutta we quote demand drafts at 1-16 to 3-32 per cent. premium, 60 days' sight at ¼ per cent. discount.

GOVERNMENT PAPER has steadily hardened in value, but there has not been much business done. We call Fours Rs. 100 1-16, Fours-and-a-half Rs. 106¼.

THE SHARE market has been closed since last mail-day, and our list of prices is to a great extent nominal.

PIECE-GOODS.—The tone of the market has been very dull throughout the week, and from the bazaar we would not put the clearances at more than about 1,500 packages, whilst from first hands transactions have been proportionately small. Prices generally may be called a half to one anna per piece lower all round, and in the case of some heavy goods, such as Drills, the fall has been 2 annas. Stocks of nearly every description of leading cloths are in excess of current demands, and the tendency at the moment is to anticipate a further decline.

TWIST.—Only a limited business is passing in English Yarns at in some cases a reduction of 1-16 to ⅛ anna per lb., but stocks are not excessive, and the pressure to effect sales less than in the case of goods. Local Yarns have been dealt in to the extent of about 1,000 bales at again slightly lower rates.

METALS.—*Copper* is quiet at about previous prices, as also is *Yellow Metal*. *Iron* is dull but no lower.

COALS are, if anything, rather easier in price, but there is no pressure to sell. Near cargoes are still most wanted.

COTTON.—There has been only a very limited business passing since last mail left, and prices have given way daily until at the close we quote a fall of quite Rs. 5 per candy. Even at this reduction, however, we are still above home currencies, and as arrivals increase, we may look for values continuing to give way. As will be seen from the figures given below arrivals are now increasing and the supplies are rapidly rising in the district markets. We may accordingly look for a more active state of things shortly, notwithstanding the adverse accounts from home.

The movements of Cotton to date show the following comparisons with the two previous seasons :—

Receipts.	1882.	1881.	1880.
For the Week	29,744	30,226	14,513
Since 1st September	176,840	237,219	144,981

Since 1st January	1,848,750	1,641,334	923,902

The following are to-day's quotations for fully-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool via Canal without commission :—

	Per Candy.	Per lb. C. & F.
Old Good Omra (Nominal)	Rs. 175—180	13 32d.

" F.G.F. do.	" 176—178	7/16d.
" Good Bengal	" 144—145	11/16d.

SEEDS.—*Linseed* is very dull, and at Rs. 5-3 to Rs. 5-4 there are more sellers than buyers both of ready old and new crop for future delivery. *Rapeseed* is quieter than formerly. Old we quote at Rs. 7-0, New for April at Rs. 6-8 per cwt. for Guzerat, but there are no buyers at the rate. *Gingelly* is in slight demand at Rs. 32 to Rs. 35 per candy according to quality.

WHEAT continues stagnant. Home advices are most depressed in tone, and freights high, so that there is very little doing for export. Meanwhile crop reports are most favourable. We quote No. 1 Soft White Rs. 30 to Rs. 31 per candy.

BOMBAY VOLUNTEER RIFLE CORPS. REGIMENTAL ORDERS

By Lieut.-Col. Comdt. W. S. HEWETT, B. V. R. C.

Bombay, December 20.

A special train will leave the Boree-Bunder and Byculla stations G. I. P. Railway at 5 a. m. (Bombay time), on Saturday next the 30th December 1882, for the purpose of conveying members to Bandoop, who purpose taking part in the manœuvres. All members intending to be present must be at the above stations not later than 4-45 a. m. (Bombay time). A train leaving Bandoop at 1-14 p. m. will bring the party back. White uniform to be worn. D. Company under Capt. Tennent will represent the attacking force. Members who are present at the above named stations at the appointed time, namely 4-45 a. m. (Bombay time) will be conveyed to Bandoop and back free. All those coming late will have to pay their own fares.

The following extract from District Orders by Brigadier General A. Carnegy, Commanding the District is published for information :—

Bombay, 22nd Dec. 1882.

Monday, the 1st January, 1883, being the day selected for the Anniversary of the Proclamation of the Assumption of the title of "Empress of India" by Her Majesty the Queen, the Troops in garrison will parade in review order on the Oval in front of the Secretariat, and will be formed up at 7-15 a. m. in line facing west at open order with 12 paces interval between Battalions.

Royal Artillery, 2nd Royal Lancashire Regt., Bombay Vol. Rifle Corps, 10th Regiment N. I., and 21st Regiment N. I.

Recruits and boys of Native Corps will keep the ground. The 21st N. I. will furnish points and colours. Guards of Native Corps to mount after parade.

Rounds of blank ammunition to be issued per man, the usual precaution to be taken for the withdrawal of the ball ammunition now in the pouches.

An Imperial Salute of 31 guns will be fired from the Saluting Battery in connection with the parade.

Staff in Review Order. Fired states to be sent to this office by 11 a. m. on the 30th inst.

(True Extract)

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menlis, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

A STEP in the direction of local self-government has been made in Madras by the transfer of the administration of funds for primary education to Municipal bodies. In a letter to the Madras Government, the Director of Public Instruction recommends the transfer of the following charges, which are wholly connected with primary education, from Provincial to Municipal revenues:—(1) Grants for Fourth or Upper Primary Standard. (2) Salary grants for teachers in Primary Schools aided on the salary system. The amount involved is estimated at Rs. 25,000 per annum. The proposal is sanctioned, and as, in pursuance of the policy of local self-government enunciated by the Government of India, provincial income has relinquished, from 1st April, 1882, the Municipal contributions to the cost of the Police hitherto received, His Excellency-in-Council directs that this resolution shall have retrospective effect from the commencement of the current official year.

THE *Pioneer* insists, fairly enough, that somebody ought to be punished for the Meerut murder—the fatal assault by a soldier on a native sugarcane seller, in connection with which a case was tried at the late Allahabad Criminal Sessions. "It now appears, from the course of the proceedings, that, while an atrocious crime of a kind peculiarly calling for exemplary punishment has certainly been committed, the local magisterial authorities have taken no steps against the offender. For the fact that they have by mistake sent up an innocent man for trial, supposing him to be innocent, does not alter the fact that they have not sent up the guilty man. Surely the Meerut authorities can be required by an executive order to investigate the circumstances under which the recent manslaughter was committed, and send the guilty person or persons, whoever they may be, for trial."

TAKING the case above referred to for its text, the Allahabad paper proceeds to declaim against soldiers being allowed to go out on shooting expeditions:—

"By all means keep the British soldier amused by any devices which are free from the serious disadvantage of provoking disturbances between him and the people of the country. Give him games of all sorts—gentlemen's games even, billiards, lawn-tennis, racquets, such amusements as he would never be able to afford at home; spend money freely on compensating him for the heavy weight of the climate he has to bear here, and the loss of congenial society of his own class in England; but let the military authorities in India remember that they have other interests in India to think about besides those connected with the great task of keeping the British soldiers to pass the time. The giant's strength is necessary with British authorities in India, but let them take care that the rank and file of the agency which they must employ here does not disgrace its application. And when a party of British soldiers is sent out shooting, it is most likely that its application will be disgraced. Rights of all kinds on the part of the villagers amongst whose fields they wander are put in jeopardy, not to speak of the susceptibilities about the relative sacredness of different animals, which the British soldier is certain not to understand, but which are no less important than rights. It is out of the question to expect from him the exercise of the tact and discretion required under the circumstances. There is only one way of dealing rationally with the embarrassment, and that is to put an end decisively, once for all, to a custom which never ought to have been allowed to grow up at all."

Apropos of the Garth-Mackenzie controversy, the *Indian Mirror* suggests that "the Government might do worse than to publish Mr. Mackenzie's Note, which may probably provide an efficacious antidote to the poison of Sir Richard Garth's Minute, which is injuriously affecting the mind of a large and most important class of the community of Bengal." Or, better still, the Government might publish the Bill, so that the public could become acquainted with its proposals and form some opinion of their value for themselves.

A LIVERPOOL correspondent of a London paper states that the Austrian Government have determined upon calling out "Der Ersatz Reserve," which would be named in English the third or last reserve. M. J. Brunthaler, who has been in Liverpool for some time, received from Salzburg, in Austria, an order commanding him to report himself at head-quarters at once. Other Austrians in Liverpool belonging to the same reserve force have received similar orders.

THE following communication is not without significance just now. A correspondent of the *St. James's Gazette* writes:—"Some years since, in private conversation with an exalted French official on the subject of coolie labour in the French colony of Réunion, he remarked to me: 'You imagine that coolie labour is a boon to our planters. Such is not the view I take of the question. I look upon it that the Emperor, in signing the Convention of 1861, sacrificed the interests of our colonists in order to be on good terms with the philanthropic party in England. Our planters could get plenty of labour at a comparatively cheap rate from Madagascar and the Mozambique coast; and whenever the vexatious and inquisitorial action of your Consuls in our colony becomes a burden too heavy to be borne, we will abrogate the Convention and revert to this our former market.' It is said that coolie emigration to Réunion has been stopped. The French aggression in Madagascar is the reply of the Republic to the action of the Indian Government."

ACCORDING to a report current in trading circles, a home paper says, the ladies are about to revive the use of balloon petticoats. The story is that certain Sheffield manufacturers have large orders, chiefly on foreign account, but that must be a phrase intended to soften the announcement; for it is added that a good deal of the stuff is for the home market. When fashion issues her decrees all bow to them. The reign of tight skirts seems coming to an end, and as figures have been outlined, so they are now to be hidden. No one would think of disputing feminine taste in matters of attire. There are so many ways of distorting nature and substituting deformity for grace that only a cynic would wish to limit the field of choice. The crinolette has done something towards the imitation of deformities which happily do not exist except in the Abyssinian sheep, and the crinoline will now come in, we suppose, to give lovely woman a dodo-like appearance, as that bird is represented in the Ashmolean Museum. The principal thing, however, is that the ladies should please the milliners and themselves. The notion that, as a rule, the guides of fashion invent costumes to please the men is a popular superstition. The men do not count, nor, in an enlightened age, is it reasonable that they should. Let wire cages, with splendid skirts hung out upon them, reign supreme once more, as they did twenty years ago.

VICTOR HUGO has given the Channel Tunnel a testimonial. It is not only a useful and excellent thing, but it is to be the consecration of human liberty and of the brotherhood of peoples. This will be a useful addition to the prospectus. But why, asks the *St. James's Gazette*, should not Sir Edward Watkin interest himself in other work of the same kind which is now before the world? On Wednesday the Geographical Society had an opportunity of hearing a good deal about the Russian railway towards Herat. The Russian General Venukoff was the Victor Hugo of the occasion, a letter from him being read by the president. In this he expressed a hope that Russian and English engineers would meet and shake hands in the Hindoo Koosh; and—honest and enthusiastic as he is—deprecated any distrust of the advances his country is making in the cause of civilization. Unfortunately, his countrymen select a [illegible] little liable to misconstruction. Knowing, for instance, that they have deliberately excluded Indian merchandise from their new province, and that the once considerable Indian trade has been in consequence all but destroyed, one cannot help feeling that the object of the new railway is not to consecrate liberty and the brotherhood of peoples. Sir Henry Rawlinson, who takes unsentimental views of these matters, acknowledged the marvellous energy of the Russian engineers, and thanked them in the name of England for having at any rate exploded the old superstition that the lofty mountains north of Kabul extended at the same elevation to the westward. To connect Askabad with Herat is, in fact, as far as engineering goes, easy; but to find the money for the work is, in the present state of Russian finance, a saving difficulty.

MILITARY NEWS.

GENERAL HARDINGE, Commander-in-Chief of the Bombay Army, is still on tour in Central India, at present in the neighbourhood of Oodeypore. The date of His Excellency's return to Bombay is uncertain.

CAPTAIN ELLIOTT, Deputy Quartermaster-General, goes on eighteen months' leave in February.

COL. FELLOWS' leave has been extended for six months, on medical certificate.

LT.-COL. F. ETESON leaves the Adjutant-General's Office and India for good. Major J. Davidson has succeeded him.

MAJOR-GENERAL NAPIER CAMPBELL, Inspector-General of Ordnance and Magazines, is expected to retire from the post he has so long and worthily filled, on the 1st January.

THE expected transfer of Major Peat, 1st Bombay Lancers, to the Judicial Department, will render the post of Second-in-Command of that regiment vacant. Major Heyland will no doubt get the step, and moreover it is believed that on being gazetted he will at once take up the duties of his new regimental position, thereby relinquishing his present appointment of Military Secretary to the Governor of Bombay. Should this turn out so, it is supposed that Captain Elliot, who stands second for the Staff, will promptly get the second squadron command, taking Captain Hay up with him into the grade; and in that event it is believed not unlikely that Captain Thomas, now attached to the 1st Sind Horse, may be brought into the Lancers as 3rd Squadron Commander, *vice* Hay.

THE recent death of Captain W. Keily at Roorkee has removed the oldest officer on the active list of the Bengal Army, and one who was widely known and respected. Captain Keily entered the East India Company's service as a gunner in 1824, and died the other day, still in harness, after fifty-eight years' service and a campaigning record such as no other living officer could have shown. He was present, to begin with, at the siege and capture of Bhurtpore by Lord Combermere in 1825-26. He next served in Afghanistan in 1842, where he was present at the forcing of the Khyber and all the subsequent operations which led up to the capture of Kabul; and in the following year he took an active part in the Gwalior Campaign. In 1846 Captain Keily was again employed with the army of the Sutlej, and was present at the battles of Feroshahur and Sobraon. For his services to H. M.'s 29th Foot in these actions he received the thanks of Brigadier-General Taylor, and was afterwards presented with a tankard by the officers of the regiment as a testimony of their gratitude. In the Mutiny Captain Keily, who, after having served as Riding Master with several regiments, had been appointed a Lieutenant on the Company's Veteran establishment, again saw some service and gained his fifth medal. After this he was made Quartermaster of the 19th Hussars; which appointment he held until the regiment moved to Meerut in 1863. Noting that this veteran soldier leaves a widow in very straitened circumstances, being entirely dependent on the pittance she derives from Lord Clive's fund, a contemporary remarks:—It would be a graceful act if the Government should recognise the work of so good a servant of the old Company by going a little out of the way to meet a very special case.

A CORRESPONDENT at Simla writes to us:—Lieutenant J. M. Grierson, R.A., has left Simla to rejoin his battery at Nowgong. This young officer has already made a name for himself. He entered the British Army—after visiting for several years a Cadetten Schule in Germany—when only 17 years of age. Not long after he was promoted to the General Staff. Having been ordered to this country, he soon obtained work in the Intelligence Branch of the Quartermaster-General's Office. During the present season he took part in the Egyptian expedition, and edited for some time the *Egyptian Gazetteer*, published at Cairo. He has received the Order of the Medjidi, sent to him at Simla a couple of days previous to his departure. Besides German, which he speaks like a Deutscher, he has a thorough knowledge of Russian, Arabic, Spanish, and a few other languages. If appearances do not deceive, this young officer has a great future before him.

THE Government have sanctioned the promotion of Lieut. E. R. Freeborn to be Captain, and the appointment of Mr. C. W. Chart Lieutenant, in the Bombay Volunteer Corps. Captain Freeborn takes charge of F. Company, which has been so long without a captain. We believe he has already secured a number of recruits, and the old members will no doubt come forward again now and infuse fresh life into the company, which had almost died of neglect. The nominations quoted above appeared in yesterday's *Bombay Government Gazette*.

VOLUNTEER RIFLE SHOOTING.

Some extraordinary shooting appears to have been done at Bellary. In match X. (900 yards, shooting with Martini-Henry rifle) and match XII. (*standing*, and firing with military rifles at an 8-inch bull's-eye from 200 yards) the scores are surprising. It is the more astonishing that so many good scores should have been made at one station, and all by men of one regiment. Unless some exceedingly tall shooting has been done in Northern India, quite half of the whole prizes of the meeting will go to Bellary, and the men of the 7th Fusiliers will make a good thing of it. They were not quite so successful in their "manipulation of the rifle"—as a Poona contemporary is fond of putting it—when the same men used to shoot in the W. I. R. A. meetings in Bombay. Perhaps the climate of Bellary is better suited to good shooting.

TELEGRAPHIC WEATHER REPORT.

CALCUTTA, Dec. 27.—The barometer has risen over the North-West Provinces, the Punjab, and Sindh, but has fallen elsewhere. A distinctly marked depression lies over Ceylon, and an area of high pressure over the Indus Valley, so that the general current of wind is from the north-east-ward, but the difference being slight, the wind is not strong except in the neighbourhood of the depression. The weather is rather cooler, and is cloudy, except in the North-West. The rainfall is unimportant.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is in weakness of children its efficacy is unequalled. Thomas Hunt, Esq., F.R.C.S., late Medical Officer of Health, St. Giles', and Bloomsbury, writes: "In badly-nourished infants Dr. de Jongh's Cod Liver Oil is invaluable. The rapidity with which two or three tea-spoonfuls a day will fatten a young child is astonishing. The weight gained is three times the weight of the oil swallowed, or more. Children generally like the taste of Dr. de Jongh's Oil, and when it is given them, often cry for more. Sold only in capsuled Imperial half-pints, pints and quarts, by all chemists, druggists, and store-keepers. Sole consignees: Ansar, Harford and Co., 77, Strand, London.

THE GOVERNMENT OFFICES AT SIMLA.

A CORRESPONDENT writes to us from Simla, Dec. 23:—The building of permanent head-quarters for the Government of India here is being vigorously pushed on. Among the workmen engaged on it may be seen several companies of the 32nd Pioneers, whose presence, it is said, affords a guarantee that some of the Secretariat offices at least will be completed by April next. The permanent head-quarters for the Army in India, the offices of the Commander-in-Chief, the Adjutant-General, and the Quarter-master-General, have been taken in hand, on the site of the former Post-office. In fact, everything, tends to give credence to the report that, hereafter only a sort of flying camp, consisting of one or two officers, and but a couple of clerks, will accompany the Viceroy and Commander-in-Chief in India to the plains; while the offices themselves, *i.e.*, the very large establishment of subordinates belonging to them, will no longer quit Simla for the plains, but will be permanently located here all the year round. The new offices for Government are being built in a grand, solid style, not equalled before on these hills. The 35 cottages in course of erection (each to accommodate two married clerks, with their families) are not likely to be all finished by next spring, though, no doubt the greater number will be so. These, with the new offices above mentioned, are estimated to cost 14 lakhs of rupees. It is presumed, however, that this amount will be reimbursed to Government within a couple of years, from the saving effected by the discontinuance of house-rent, travelling allowances, &c., hitherto annually granted to the different establishments going to and coming from Calcutta. It is not, therefore, the amount about to be expended on these useful works that deserves special notice, but the extraordinary way in which the cottages destined for the poor clerks are being constructed with regard to their accommodation and confort. If ornament rather than utility were the desideratum, they (the cottages) would certainly merit approval, for, from the outside, they look decidedly pretty, but I very much question whether any families can ever be really comfortable in only two rooms measuring but 18 feet by 12 feet and 14 feet by 12 feet respectively. And the separation of this one suite of apartments for the one family from the adjoining one is but by a wall, so thin that freedom in conversation, etc., cannot be maintained by either. It would thus appear unreasonable to expect that any respectable clerk will ever care to inhabit them with his family. The failure of these cottages to give satisfaction is anticipated to be similar to that of the huge barracks erected for bachelor clerks of the Secretariat offices, on the Cart-road, some time ago. These houses were very badly constructed. The present Executive Engineer is known to have condemned their arrangement and proposed the removal of the nuisance, but nothing has yet been done, and a monument of the want of ordinary intelligence or common sense is left standing to disgrace the authorities.

The Venerable Archdeacon H. J. Mathew leaves Simla on the 28th instant.

Quiet reigns here now. The mall is almost free from "jinirikshas" and riders. The European shops are nearly all closed; but some of the hotels keep open during the winter, and very comfortable lodgings can now be had at greatly reduced rates. Seekers of health rather than hunters after pleasure should give Simla a trial now. The air is delightfully cool and bracing. We have not had snow yet, but the weather is very cloudy, and by Christmas, if not before, we shall, no doubt, have the usual thick layer of beautiful white snow around us again.

RECKLESS USE OF FIREARMS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—With reference to the gun case reported in your columns of this date, I may say that it is becoming a common practice with some Europeans in Bombay to freely discharge firearms in the public highways, and particularly so at Colaba. On Sunday morning last, three European, with rifles, residents of Colaba, were passing along a much-frequented part of that neighbourhood, when one of the party commenced firing his skill as a marksman, and discharged his rifle twice in quick succession at some birds or pigeons under the eaves or roofs of the godowns near the Sassoon Dock. Such a proceeding in England would place the person who discharged the rifle in the lock-up, and the Commissioner of Police would do well were he to issue orders to his native staff to follow up all such sportsmen and ascertain their names and prosecute those who recklessly discharge firearms on the public roads.

Dec. 27. FACT.

FOREST CONSERVANCY IN SALSETTE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—"Forests," in his letter in your paper of to-day, says that all one has to do in order to escape the rigour of the Forest Act is to get a pass, at an outlay of Rs. 2 pies. At first sight this looks simple enough, but it must not be forgotten that in order to obtain a pass costing 3 pies, we are sometimes obliged to go 10 and 15 miles, all the way to Tanna, at a cost of several times the amount of the pass, plus considerable trouble. That is not all. You cannot get the pass even then. If the officer is not in Tanna at the time, you must go into the districts in search of him, and take the chance of his giving you the pass or not, as attis his fancy or caprice. Will "Forests" be good enough to say if people are not put to this vexatious trouble and expense in getting the pass for 3 pies? Laws are not always so obnoxious as the administration of the law make them. A headload of leaves may hardly be worth more than an anna, but by the time one is able to obtain the pass they get dried up, and become almost unsaleable.

Holloway's Ointment and Pills are the best, the cheapest and the most popular remedies. At all seasons and under all circumstances they may be used with safety and with the certainty of doing good. Eruptions, rushes, and all discriptions of skin diseases, sores, ulcerations, and burns are presently benefited and ultimately cured by these healing, soothing, and purifying medicaments. The Ointment rubbed upon the abdomen, checks all tendency to irritation of the bowels, and averts dysentery and other disorders of the intestines. Pimples, blotches, inflammations of the skin, scrofulous sores, glandular affections, and enlarged glands can be effectively overcome by using Holloway's remedies according to the instructions accompanying each packet.

HEADS OF INTELLIGENCE.

(FROM 1ST DEC. TO 8TH DEC. INCLUSIVE.)

THE Queen came up to London on Monday, and formally opened the new Royal Courts of Justice. The ceremony was brief, but the attendance was numerous, and comprised many members of the Royal Family, the Judges, members of both Houses of Parliament and of the Bar. Her Majesty returned to Windsor in the afternoon. The streets through which the Royal procession passed were thronged with people, who loudly and continuously cheered Her Majesty.

The Queen held an Investiture of the Order of the Bath yesterday at Windsor when many military and naval officer received the insignia. The Court Circular announces the deep sorrow of the Queen at the Archbishop's death, and adds that Her Majesty would have postponed the opening of the Law Courts on Monday but for the great inconvenience of putting aside all arrangements already made.

The family of the late Primate have declined the offer of interment in Westminster Abbey, and the body of the deceased Prelate will be buried in Addington Palace on Saturday.

A Cabinet Council was held on Friday, at which all the Ministers were present, except Earl Spence and Mr. Childers.

The House of Lords met at 4 o'clock on Saturday, when a Royal Message was read proroguing the Session of Parliament until Thursday, the 15th of February next.

In the House of Commons on Friday, the remaining resolutions relating to Grand Committee were briefly discussed, and were eventually passed. On Saturday the House met at the usual time but, after a few questions, members were summoned to the House of Lords to hear the Royal Speech.

The polling at Wigan on Saturday resulted in the return of Mr. A. Egerton by a majority of upwards of 1,000 votes over his Liberal opponent Mr. W. Wren.

LIFE ASSURANCE FUNDS.

IN a list of ninety Life Offices transacting business in the United Kingdom, the STANDARD LIFE OFFICE, established 1825, occupies the second place in the list as regards Magnitude of Invested Funds. It is the thirtieth in respect of age. In evidence of the advantages afforded to New Assurers, it may be mentioned that in 1881 the amount of New Assurances effected by the Standard was upwards of £1,400,000 sums assured, and is believed to be the largest business transacted during the year by any Office in the United Kingdom. This preference in favour of THE STANDARD is no doubt to be attributed in a great measure to the freedom from restrictions which marks the Standard Policy, and to the name the Company has acquired for sound and liberal management.

Details of the Invested Funds (upwards of Five and three quarter million pounds) and every information may be obtained on application.

THE PATENT "PELICAN WARE."

AMONG the splendid assemblage of new goods, all of the most approved style, and obtained from the very best houses in the trade now being exhibited in our Show Rooms, none, perhaps, will be more admired than and *recherché* array of what has been felt for many years to be a great desidera UNTARNISHABLE ELECTROPLATED ARTICLES. These are produced by a recent process and patented by an eminent English manufacturer. By this process every article coated with a transparent film of glaze. This glaze, which is the result of careful research, is sufficiently hard to withstand ordinary wear and tear; at the same certain degree of elasticity that prevents it from being easily fractured. protective covering, the article no longer requires the constant cleaning and polishing were it not so treated; simple dusting or washing is all that is necessary to make to new. It will at once be obvious that the process Calculated to save a great time and labour, and that the articles upon which it is employed always present brilliant appearance. Thus in the families of the nobility in club-houses, hotels large establishments, where a considerable quantity of plate in daily use, the time will form no inconsiderable item of economy, and the servants at liberty other duties, thus benefiting both master and servant.

It is well known to all charge of plate that rouge and other polishing powders quickly wear away both gold and this source of depreciation is avoided by the glazing process. The improvements ever, been carried out farther, for in conjunction with the foregoing are employed decorations in colours, which are painted on like the design on china, and when glazed ornamentation is effectively protected from injury. This system of decoration, in with engraved and chased figures, affords an endless field for artistic display, and charming as well as novel effect. It is by no means too much to say that this ware deserves the highest credit for the skill and science to bear upon this subject, and that by unwearied patience and ability which have invention to a pitch of perfection that leaves little or nothing to be desired. placed articles to be used at sea, and for Colonial use, certain kind of improvement adapted to meet the wants of both cases appreciated. Among a great variety of useful and ornamental series of very elegant designs in chimney ornaments, which will case of costly china vases. We may also mention a few other dessert stands, liqueur stands, tea and coffee services, and a host domestic matters, all of which are made of the best material, and appreciated.
